

Legal Operations

Tools & Consulting Services

Optimize efficiencies. Manage legal spend. Reduce risk.

Working at the heart of Legal Operations, Legility's multi-disciplinary experts draw from decades of innovation in the legal industry. Our tried and tested tools and advisory services align with benchmarks established by the ACC Legal Operations Maturity Model and CLOC Core Competency Legal Operations Reference Model. Solutions can be deployed quickly within a matter of days or even hours.

Legility Tools

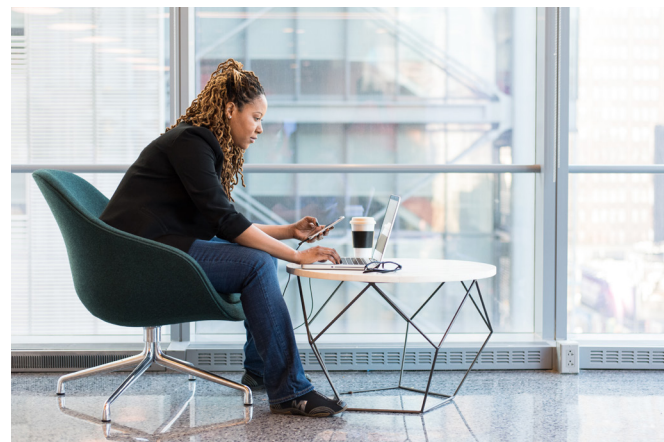

Legility IQ. Access all of your legal data metrics in one place, available in real-time on any device. Configure with ease simple dashboards with nuanced levels of details, depending on what you need. It's the ideal way to monitor progress, project tracking, spending and financial variances.

Legal Team Manager. Manage your legal teams more transparently and effectively with this task management and activity solution. Built for legal departments and law firms, Legal Team Manager scales to work with any size team from small departments to hundreds of attorneys.

Contract Lifecycle Manager. Get your team moving forward with centralized contract management. This lightweight yet robust app is easily linked to existing contract repositories.

Legal Operations Tools

Legility Tools, cont'd

Contract Abstraction Manager. Rapidly analyze large volumes of contracts while maintaining consistency and quality. Make data more usable, speed up data extraction, and make analysis easier and faster.

Legal Spend Analyzer. Quickly analyze legal vendor spending with pre-built dashboards and customizable visualizations.

Data Retention Tracker. Define your data retention approach and automatically manage your data images for vast numbers of custodians across overlapping legal holds.

Corporate Secretary Services Tracker. Optimize compliance activities for complex corporate structures. This solution systematically collects corporate information and uses it to identify and resolve gaps quickly and efficiently.

A New Law Company for Legal Departments and Law Firms

Legility, a leader in Legal Operations, provides consulting, technology, managed solutions and flexible legal talent engagement services to corporations and law firms. The company has more than 1,000 lawyers, engineers, consultants, technology and data specialists, and operational experts serving one-third of the Fortune 100 and one-quarter of the Am Law 200. Founded in 2000, Legility works with clients to improve operational efficiency.

Our Approach is Different by Design

Legility creates solutions by combining wide-reaching legal expertise and expert business proficiencies with operational excellence. Let's collaborate to improve your risk profile, better predict and lower costs, track and measure results, and, most importantly, create value for your business.
